WE PROUDLY PRESENT THIS PROGRAM AS ANOTHER
ECONOMY PRINTERS' PRODUCTION

HOW DO WE STOP THE CLOCK?

An alarming observation appeared recently that we feel is worth repeating, worth thinking about, and worth doing something about.

It presumes to trace the historical course which people follow - unless they actively choose to alter the course.

According to this "look at history," the people go--

1. From chains to spiritual faith.
2. From spiritual faith to courage.
3. From courage to liberty.
4. From liberty to abundance.
5. From abundance to selfishness.
6. From selfishness to complacency.
7. From complacency to apathy.
8. From apathy to dependency, and
9. From dependency back to bondage.

How far along this road to disaster is America? It's not too late to stop the clock!
